We can find a solution that will protect lawful content. But this bill is flawed & that's why I'm withdrawing my support. #SOPA #PIPA

**IF SOPA PASSES, AND WE POST
PIRATE BAY LINKS ON SENATE.GOV**

WOULD THEY SHUT DOWN THEIR OWN WEBSITE?

eBay against counterfeits

Find out how eBay is working to prevent the sale of counterfeit items

The screenshot shows the eBay website interface. At the top, there is a search bar and navigation links for 'Buy', 'Sell', 'My eBay', 'Community', and 'Help'. Below the search bar, the page title is 'How eBay Protects Intellectual Property (VeRO)'. The main content area is divided into several sections:

- Search the Help pages:** A search box with the example text 'payment method' and a 'Search Help Pages' button.
- How eBay Protects Intellectual Property (VeRO):** A section with a yellow header. The text explains that eBay is committed to protecting the intellectual property rights of third parties and providing a safe place to trade. It mentions the Verified Rights Owner (VeRO) Program and lists several guidelines for users to avoid creating listings that would infringe on intellectual property rights.
- Listings removed through VeRO:** A section explaining that if a listing was removed through VeRO and the user believes it was an error, they should contact the rights owner directly.

On the left side of the page, there are two sidebars:

- eBay Help:** A sidebar with links for 'Help Topics', 'A-Z Index', 'eBay Acronyms', 'eBay Glossary', and 'Contact Us'.
- Related Links:** A sidebar with links for 'Learning Center', 'eBay University', 'Security Center', 'Contacting Customer Support', and 'Community Answer Center'.
