

Shimako Kato

Ms. Kato received a Bachelor of Engineering Degree from Waseda University in 1988. In 2006, she registered as patent attorney and joined Abe Ikubo, and Katayama. She had a working experience in the Japan Patent Office as a patent examiner and a member of board of Appeal in the field of metal processing and polymer processing (1988-2006). She won a scholarship by the National Personnel Authority to European Patent Office and German Patent Office (1998). She seconded to the Tokyo District Court as a Judicial Research Official (2002-2005). In the IP division at the Tokyo District Court, she provided expert advices on technicality of patent properties to judges when they make judicial decisions of patent infringement cases in the chemical field and of other intellectual property cases. She has been mainly involved in patent infringement cases.
